

## What's your Smile Personality?

Fill out the form below and Dr. Wrather will respond with an analysis of your teeth and will give suggested treatments to improve your smile.

Name:

1. In a slight smile, with lips parted, do the tips of the front teeth show? Yes No
2. Are the two upper front teeth slightly longer than the adjacent teeth? Yes No
3. Are they too long? Yes No
4. Are the upper six front teeth even in length? Yes No
5. Do all the teeth come in contact with each other? Yes No
6. Are the front teeth straight (versus being crooked, overlapped, or protruding)? Yes No
7. Smiling more, are the teeth all one color? Yes No
8. Do your teeth have white or brown stains? Yes No
9. Are front teeth that contain fillings matched with other teeth so that they are unnoticeable? Yes No
10. Is one front tooth darker than the rest? Yes No
11. Are the lower six front teeth straight? Yes No
12. Are they even in appearance? Yes No
13. In a full smile, normally the back teeth show. Are these free of stains and unsightly restorations? Yes No
14. Do the necks of the teeth have erosion, or a ditched-in "V" that can be seen or felt with the fingernail? Yes No
15. In a full smile, does the top lip rise above the necks of the teeth so that the gums show? Yes No
